

Agricultural Engineering

- Complete mechanization training in paddy
- Demonstration of Helical Blade puddler
- Mat nursery preparation and transplanting using Yanji Transplanter gletschercasino.org
- Training on coconut climbing
- Working and maintenance of sprayers
- Protected cultivation of vegetables rawmedcol.com
- Water Management structures for home steads
- Techniques of rainwater harvesting
- Selection and use of micro sprinklers
- Soil and water conservation with agronomic and structural measures

Agricultural Entomology

- Integrated Pest and Disease Management in rice
- Organic vegetable production with the aid of botanicals and bio-control agents
- Eco-friendly management of major pests in banana
- Pest and disease management in organic farming
- Management of stem bleeding in coconut
- Trichocards for the management of rice stem borer and leaf folder
- Pheromone traps for the management of cucurbit fruit flies
- Strategies in organic pest management for extension functionaries
- Pseudomonas for effective disease management in rice
- Use of metallised reflective ribbons for the management of bird pests of rice
- Trichoderma – an effective biocontrol agent for the management of stem bleeding
- Preparation of various extracts for management of pests in households
- Management of foot rot and leaf spot diseases of betel vine with biocontrol agents
- Integrated Pest and Disease Management in vegetables
- Integrated Pest and Disease Management in coconut gardens
- Novel compounds in pest management

Home Science

- Fruit and vegetable processing
- Mechanized production of white pepper
- Cultivation of milky mushrooms on house terraces
- Comprehensive training on mushroom cultivation
- Production of coconut water vinegar
- Value added products from cashew apple
- Jack fruit processing

Horticulture

- Cultivation and marketing of medicinal plants suitable to homesteads
- Cultivation of cool season vegetables
- Bio-dynamic farming

- Intercropping in coconut
- Kitchen gardening
- Nursery management and commercial floriculture
- Organic farming in vegetables
- Protected cultivation of vegetables
- Quality planting material production
- Quality seed production in vegetable crops
- Scientific cultivation of banana
- Scientific cultivation techniques in vegetables
- Terrace cultivation
- Use of growth regulators in fruits and vegetables

Agricultural Extension

- IT enabled extension management
- Entrepreneurship development
- Capacity building and group dynamics
- Motivation and team building
- Creative leadership skills
- Effective communication skills
- Time management

Livestock Management

- Scientific dairy farming
 - Scientific goat rearing
 - Rabbit farming
 - Broiler farming
 - Backyard Poultry rearing
 - Profitable dairy enterprise
 - Fodder cultivation
 - Economic milk production
 - Advances in dairy production
 - Advances in poultry husbandry
-
